Hungarian Association of Welding Technology
and Material Testing

Hungary/Magyarország/ Budapest 1148.

Fogarasi út 10-14 / www.mhte.hu

+36 1 467 2812 +36 30 381 1778 Béla Gayer
contact person

- **MHTe was founded** in 1990 in Budapest. Its main activities are QA of qualification and the certification of welders, material testers, welding engineers, technicians etc. and the promotion of advanced studies of the professionals and the development of the welding industry.
- **The owners of MHTe** are schools, trade, and industrial firms. MHTe has more than 100 certified training units as cooperation partners for training welders, welding engineers (IWE, IWT, etc.) and material tester according to European accredited qualification and certification system.
- **MHTe has a wide range** of connections and cooperation with education and SMEs. Every year is arranged a countrywide conference for the welding coordinators and also there are various conferences, workshops, and training courses organized for the instructors, trainers, teachers and lecturers. MHTe also represents craft business and companies.

MHtE as the sectorial partner in Hungary

- Present in the name of the MHtE Hungarian **Association** of Welding Technology and Material Testing, the word “Association” assures the organization’s main activities fit the Sector Skills Alliances requirements.
- In Hungary, **MHtE is the only organization** with expertise in education training in the industrial sector business.
- MHtE is the **main implementer of the international requirements** into the national requirements. MHtE has contacts with the Government, the Trade Chamber, more than 100 VET schools and more than 250 industrial companies. As a member of MHtE’s organisation structure, there is a training organisation, named MHtE’s Academy, specifically developed to address certification of the different European and international professions. **MHtE is responsible for issuing diplomas** both for welders and welding professionals at upper levels. This aspect in MHtE portfolio addresses the importance associated with the participation in the MAKE - IT project as a sectorial organization, aiming to find and implement the equivalent or similar to equivalent professions’ competences between the national and international skills alliances.

Role in the project

- **MHtE is the EWF ANB in Hungary**, thus ensuring that it will play an important role in the assessment of the national needs but also in the implementation of the project results in Hungary. This will lead to MHtE having an active involvement and collaborate in all phases of the project, and thus in all WP activities.
- **MHtE will use its network**, not only to disseminate the project results, but to ensure that the developed results are in line with the national industry requirements and needs. MHtE has a competent team with the skills, expertise and competences necessary to carry out pilot activities, related to the testing of the project results, in Hungary.
- **A representative of MHtE will be part of the project steering committee** participating in the operational management, and will conduct the national articulation with the key staff concerning financial management and technical activities of the project.
- **Leader of the 9th.Working Package**

Who are the representatives in MHtE in the MAKE-IT?

Manager, [teacher](#), technician/contact person /,
[administrative](#)

- **Manager:** Dr Béla Szabó
bela.szabo@mhte.hu
- **Teacher:** Dr Géza Gremesberger
geza.gremesberger@gmail.com
- **Technician:** Béla Gayer bgayer@mhte.hu
- **Administrative:** Mrs. Sandor Laurencsik
benedekj@mhte.hu

Conclusions

MHtE would like to use the opportunity as being partner in MAKE-IT consortium **to make more practical** accepting the european practitioner qualification thus to know and decide the continuous **improvement of the equal qualification** levels available in Europe and also gives possibilities for the **further activities** at this area if needed.
